SUMMARY

I am a 17yo passionate self-taught programmer and aspiring software engineer with a strong foundation in C++, DSA, and frontend development. With a proven track record of solving over 500 coding challenges and completing 20+ projects, I am eager to leverage my skills in real-world software development. I thrive in teamwork and am dedicated to lifelong learning in emerging technologies.

EXPERIENCE

Frontend Developer

Freelance Projects

2023 - Present Remote

Engaged in various freelance projects, focusing on frontend development.

- Contributed to frontend of a Dubai-based group of company, building responsive user interface/experience.
